

Preventive Medicine & Occupational Health Training Courses FY99

GENERAL INFORMATION

HOW TO USE THIS CATALOG: Information on each course includes prerequisites, course descriptions, certification awarded, student population, convening dates and times at each activity. Additionally, The Catalog of Navy Training Courses (CANTRAC) can be accessed via Internet at <http://www2.cnet.navy.mil>.

Interested in other courses/seminars not currently offered? Let us know at the NEPMU-5 Training Department

TO REQUEST QUOTAS: Reserve quotas from the respective quota control activity by letter, message, phone, FAX or e-mail:

1. Officer in Charge Phone: (619) 556-7086

Navy Environmental and Preventive Medicine Unit No. 5 DSN 526-7086

Naval Station, Box 3658143, Bldg. 3235 FAX: (619) 556-7071

3235 Albacore Alley DSN 526-7071

ATTN Training Department

San Diego, CA 92136-5199 NEPMU-5 Website: <http://trout.nosc.mil/~nepmu5>

E-mail: nepmu5@nepmu5.med.navy.mil

2. Officer in Charge Phone: (808) 471-9505

Navy Environmental and Preventive Medicine Unit No. 6 DSN 430-0111, ask for

Box 112, Bldg. 1535 471-9505

ATTN Training Department FAX: (808) 474-9361

Pearl Harbor, HI 96860-5040

3. Officer in Charge Phone: (360) 315-4450

Navy Disease Vector Ecology and Control Center DSN 322-4450

19950 7th Ave NE, Suite 201 FAX: (360) 315-4456

ATTN Education and Training Department

Poulsbo, WA 98370-7405 E-mail: postmaster@ndvecc.navy.mil

TO CANCEL A QUOTA: If students are unable to fill a requested quota, please notify the training activity as soon as possible.

UNIFORM: Appropriate uniform of the day is required for all military personnel. Course description will advise of special clothing needs. Appropriate civilian attire is required for civilians.

ORDERS: TAD orders are not required for personnel to attend classes. The parent command should retain service, health and pay records. If messing/berthing is desired, parent commands are recommended to issue orders as follows:

NEPMU-5: Orders direct student to report to Officer in Charge at above address. The student must report to Personnel Support Detachment, Bldg. 56, Window 1 for TAD under instruction. Berthing and messing are available on and off-base.

NEPMU-6: Orders direct student to report to Officer in Charge at above address.

NDVECC: Orders direct student to report to Officer in Charge at above address. During working hours, student will report directly to NDVECC in the uniform of the day. After working hours and on weekends, leave a message on the Center's voicemail, listed above. Report the following working day prior to 0700 to Officer in Charge.

CIN / COURSE TITLE

B-322-1050 Pest Management - Medical Entomology and Pest Management Technology (Reserve)

Reference: DoDINST 4150.7, DoD 4150.7-P

Prerequisites: None

Certifications: None, except for PMTs under special circumstances.

Rates/Ranks: Reserve personnel on active duty for 14 days training.

Description: This two-week course is designed to acquaint reserve personnel with the biology and control of medically important arthropods and with the epidemiology of diseases arthropods transmit. This survey course does NOT lead to certification, but satisfies all prerequisites required to attend Operational Entomology Training (B-322-1077). However, upon approval from NDVECC, this course allows Preventive Medicine Technicians, whose certifications have elapsed, to be initially certified as DOD Pesticide Applicators in Category 8 - Public Health.

Availability: NDVECC - Bangor (0730-1530)

21 Jun - 02 Jul 99

CIN / COURSE TITLE

B-322-1070 Pest Management -Core: Basic Pest Management Technology

Reference: DoDINST 4150.7, DoD 4150.7-P

Prerequisites: Successful completion of the US Navy's "Basic Pest Control Technology" (NTTC 151 or the US Air Force's "Pest Management Specialist" (CDC 56650) correspondence courses.

Certifications: None.

Rates/Ranks: Reservists, Seabees, and personnel of the Federal Aviation Administration, Department of the Interior, National Park Service and Department of Defense.

Description: This nine-day course provides core material for DoD certification for the Pesticide Applicators series (see B-322-1071 and B-322-1072). It is designed for military and civilian personnel engaged in pest control operations at military activities. It covers pesticide laws, regulations, toxicology, safety and use and maintenance of equipment. Work uniforms are recommended for field equipment sessions.

Availability: NDVECC - Bangor (0700-1530)

14 - 24 Sep 99

CIN / COURSE TITLE

B-322-1071 Pest Management -Plant Pest and Vegetation Management

Reference: DoDINST 4150.7, DoD 4150.7-P

Prerequisites: Successful completion of Core: Basic Pest Management Technology (B-322-1070)

Certifications: Certified DoD Pesticide Applicator (in the categories listed below), valid for 3 years.

Rates/Ranks: Reservists, Seabees, and personnel of the Federal Aviation Administration, Department of the Interior, National Park Service and Department of Defense.

Description: When taken in conjunction with the Core course, this four-day course provides Pesticide Applicator Certification Training in the categories of Ornamental and Turf, Aquatic, and Right-of-Way Pest Control.

Availability: NDVECC - Bangor (0700-1530)

24 - 29 Sep 99

CIN / COURSE TITLE

B-322-1072 Pest Management - Arthropod and Vertebrate Pest Management

Reference: DoDINST 4150.7, DoD 4150.7-P

Prerequisites: Successful completion of Core: Basic Pest Management Technology (B-322-1070)

Certifications: Certified DoD Pesticide Applicator (in the categories listed below), valid for 3 years

Rates/Ranks: Reservists, Seabees, and personnel of the Federal Aviation Administration, Department of the Interior, National Park Service and Department of Defense

Description: When taken in conjunction with the Core course, this seven-day course provides Pesticide Applicator Certification in the categories of Public Health and Institutional, Structural and Health-Related Pest Control.

Availability: NDVECC - Bangor (0730-1530)

29 Sep - 08 Oct 98

CIN / COURSE TITLE

B-322-1074 Pest Management - DoD Pest Management Recertification

Reference: DoDINST 4150.7, DoD 4150.7-P, BUMEDINST 6250.12 series

Prerequisites: Previous DoD Pesticide Applicator Certification in Public Health Pest Control.

Certifications: Recertification as DoD Pesticide Applicator.

Rates/Ranks: PMTs

Description: This four-day course is designed to recertify PMTs as DoD Pesticide Applicators in Public Health. PMTs must be recertified every three years. The curriculum includes refresher information and updates on current federal regulations; vector identification, survey and control, including chemical and non-chemical methods; and hands-on pesticide dispersal equipment training. Recertification in Category 8 can also be attained through the Operational Entomology Course (B-322-1077).

Availability: NDVECC - Bangor (0700-1600)

27 - 30 Oct 98 19 - 22 Oct 99

13 - 16 Apr 99 (Nepmu-5 San Diego)

20 - 23 Oct 98 (Nepmu-6 Pearl Harbor)

CIN / COURSE TITLE

B-322-1075 Pest Management - Shipboard Pest Management

Reference: OPNAVINST 6250.4 series, BUMEDINST 6250.15

Prerequisites: None

Certifications: Medical Department personnel who successfully complete both the classroom and field training portions of the course will be issued a Shipboard Pest Control Certificate (NAVMED 6250/1), which will qualify them to conduct shipboard pest control operations. Supply and Food Service personnel cannot be certified to apply pesticides, but will receive a certificate of course completion.

Rates/Ranks: Senior Enlisted MDRs and other HMs. Supply and Food Service Officers, Senior MSs, Watch Captains, MAAs and other personnel responsible for food handling and storage are encouraged to attend the one day classroom sessions.

Description: This one-day classroom and one-half day field course fulfills annual requirements for shipboard pest control certification. Training includes proper survey and control of shipboard pests, application and use of personal protective equipment. Follow-on hands-on shipboard field training with emphasis on correct and safe use of pesticides and related equipment is required before certification can be granted.

CIN / COURSE TITLE

B-322-1077 Pest Management - Operational Entomology Training

Reference: BUMEDINST 5450.157, OPNAVINST 6250.4 series

Prerequisites: Personnel who have completed Reserve Course (B-322-1050) or whose mobilization billets are related to preventive medicine.

Certifications: Recertification for DoD Pesticide Applicators in the category of Public Health Pest Control

Rates/Ranks: PMTs, Entomologists, Epidemiologists, Environmental Health Officers, and reservists.

Description: This is a two-week advanced preventive medicine course in applied vector-borne disease control in disaster relief, combat, and other contingency operations. It covers contingency planning and problem solving, vector-borne disease profiles, emergency survey and control procedures, and deployment scenarios. STUDENTS SHOULD BRING APPROPRIATE FIELD CLOTHING (CAMMIES, BDUs, etc.)

Availability: NDVECC - Bangor (0730-1530)

10 - 21 May 98 (NEPMU-6)

CIN / COURSE TITLE

B-322-2001 Managing a Respiratory Protection Program

NEPMUs no longer offer this course. NAVOSH and Environmental Training Center provides a two-day Respiratory Protection Officer Course, (A-4J-0082). For a quota or additional information, contact the NAVOSH and Environmental Training Center, Norfolk, VA at DSN 565-8778 Comm: (757) 445-8778 FAX: (757) 445-0456

CIN / COURSE TITLE

B-322-2101 Food Service Sanitation Instructor Certification

Reference: SECNAVINST 4061.1 series, NAVMED P-5010-1 and NAVSUP 520

Prerequisites: None

Certifications: Food Service Sanitation Instructor certification good for 3 years

Rates/Ranks: Mess Management Specialists and Medical Department personnel E-5 and above, and civilian personnel assigned in a supervisory capacity to Navy and Marine Corps general messes and commissary stores.

Description: This week-long course includes the initial six-hour Food Service Sanitation Course (microbiology, foodborne illnesses, special precautions, personal hygiene and work habits, manual/mechanical dishwashing, and insect and rodent control) as well as instructional techniques and use of instructional media. Students will present two lessons.

Availability: NEPMU-5 (0730-1530)

CIN / COURSE TITLE

B-322-2205 Infectious Disease Countermeasures for Deployed Forces

Reference: P-5058, Control of Communicable Disease Manual

Prerequisites: None

Certifications: None

Rates/Ranks: HMs and Medical Officers

Description: Familiarization with information sources regarding disease threats encountered on deployment. The students will utilize instructions, manuals and the NEPMU support structure to develop and implement infectious disease countermeasures and a training program in health security. Screening for high-risk behaviors and basic intervention techniques will also be covered.

Availability: Call

CIN / COURSE TITLE**B-322-2209 Malaria Prevention and Control**

Reference: BUMEDINST 6230.2 series, Navy Medical Department's "Guide to Malaria Prevention and Control"

Prerequisites: None

Certifications: None

Rates/Ranks: HMs and Medical Officers

Description: This half-day course updates shipboard Medical Department representatives with the current malaria situation in WESTPAC. Personal protective measures and chemoprophylaxis are stressed. May be taken in conjunction with Malaria, Laboratory Identification Course (B-322-2210).

Availability: NEPMU-5 (0730-1530)

CIN / COURSE TITLE**B-322-2210 Malaria, Laboratory Identification**

Reference: None

Prerequisites: None. Recommend take in conjunction with B-322-2209.

Certifications: None

Rates/Ranks: HMs and Medical Officers

Description: This half-day course is designed for all MDRs deploying to WESTPAC and Indian Ocean areas who will perform lab tests and procedures. Laboratory training consists of demonstrations and bench-top practical hands-on application. Prospective students are encouraged to contact the Microbiology Department in advance to enable us to tailor the training to meet specific needs.

CIN / COURSE TITLE

B-322-2221 Sexually Transmitted Diseases: Laboratory Procedures and Diagnosis

Reference: None

Prerequisites: None

Certifications: None

Rates/Ranks: HMs

Description: This half-day course provides current information on STDs and laboratory tools to facilitate diagnosis, treatment and follow-up. Laboratory training is emphasized in identification of *Neisseria gonorrhoeae* and syphilis serology. Course is designed for independent duty corpsmen with little lab training or experience. Prospective students are encouraged to contact the Microbiology Department in advance, so that the class can be tailored to meet student needs.

CIN / COURSE TITLE

B-322-2330 Asbestos and Other Thermal Insulation, Health Effects/Control of

Reference: OPNAVINST 5100.19 series, OPNAVINST 5100.23 series, and NSTM Ch. 635

Prerequisites: None

Certifications: None

Rates/Ranks: HMs, HTs, BTs, MMs, ICs, DCA, CHENG, MPAs, Medical and Safety Officers.

Description: This half-day course gives a comprehensive overview of asbestos and thermal insulation hazards and control measures. Topics include health hazards of asbestos, safe handling and disposal procedures, and proper use of protective equipment and clothing, procedures for reporting actual or suspected exposure to asbestos, medical surveillance, and association of cigarette smoking and asbestos-related diseases. Course does NOT provide hands-on rip-out training and engineering control procedures required by "Emergency Asbestos Rip-Out Team" members, but is strongly recommended to supplement their training (Fleet Asbestos Handling Training Course K-760-2116).

Availability: NEPMU-6 (1300-1600)

CIN / COURSE TITLE

B-322-2334 Analysis of Bulk Asbestos Samples

Reference: OPNAVINST 5100.23 series

Prerequisites: Assignment to direct responsibility for analysis of bulk material to determine asbestos content. Familiarization with the method and on-the-job experience are helpful.

Certifications: None

Rates/Ranks: Personnel assigned direct responsibility for asbestos analysis.

Description: This five-day course teaches skills and knowledge to identify asbestos in bulk sample materials. Course includes operation and optimization of the polarizing microscope and hands-on training and analysis of "real world"

samples.

CIN / COURSE TITLE

NONE Operational Preventive Medicine Course (OPMC)

Reference: None

Prerequisites: None

Certifications: None

Rates/Ranks: Physicians, Nurses, Environmental Health Officers, Independent Duty Corpsman and Preventive Medicine Technicians (E6 and above)

Description: This two week course identifies mission critical public health concerns in operational settings with an emphasis on planning and practical management of Preventive Medicine operations from pre-deployment through post-deployment. Expert guest speakers as well as staff specialists present topics including epidemiology, international health care issues, field medical entomology as well as chemical/biological warfare, industrial hygiene concerns during operational deployment, lessons learned from prior armed conflicts, pre-deployment planning and post-deployment after action reporting. A two-day field exercise at Camp Pendleton, CA will provide additional field training skills.
